Sanctuary Renovation: *Update*

The new altar in the floor is finished. What is next? We have been in discussion with a local blacksmith and are currently working on designs for a custom made bracket for the sanctuary lamp; the lamp, which has been refinished, will be suspended from this bracket on the Epistle side of the sanctuary. Also, we will be restoring the pulpit and are in the design process for it's elevation on a pedestal. A new communion rail to match the altar is also "in the works." So, please continue in your generosity to this project. Thank you and God bless!

A teacher-training program for the Creighton Model Fertility Care System will be held at St. Felix Friary in Huntington from **June 2 - 9**.

The Creighton Model Fertility Care System works cooperatively with a woman's cycle to monitor the naturally occurring biological markers which identify the (in)fertile. This information can be used to help couples to achieve or to avoid pregnancy with a high rate of effectiveness, and it can also be used to help women to monitor their gynecological health. The new reproductive science of NaPro technology, which is based on the Creighton Model Fertility Care System, provides new hope for couples experiencing infertility. For more information about the teacher-training program in June, please contact Theresa Schortgen at chartdaily365@frontier.com, or 260.494.6444.
